

The [Sustainability Lecture Series](#)
Continues **Thursday, April 16th at 4:00 PM** in
DeMeritt Hall, Room 240.
Refreshments are at 3:40pm.

**“Scenario-Based Risk Assessment for Planning for Climate Change
Adaptation in the Coastal Zone”**

[Paul Kirshen](#)

**Research Professor, Tufts University Civil & Environmental Engineering
Department**

Paul Kirshen has a Ph.D. in Civil Engineering from Massachusetts Institute of Technology; an M.S. in Civil Engineering from Massachusetts Institute of Technology; and a Sc.B. in Engineering from Brown University. He is conducting research on water resources planning and management, integrated assessment, climate change, water policy analysis, and hydrology.

The Spring Sustainability Lecture Series is sponsored by the NRESS Ph.D. Program, the Class of 1954 Fund, the College of Life Sciences and Agriculture, the Institute for the Study of Earth Oceans and Space (EOS), the Environmental Research Group, the University Office of Sustainability, the Department of Natural Resources and the Environment, and the Department of Earth Sciences. These seminars are open to the public and will be held Thursdays at 4pm with refreshments at 3:30 pm in DeMeritt Hall 240, unless otherwise noted.
